

What's the Secret of Our Success?

'Actors are like icebergs: what you see above the surface is only ten percent of who they really are. Their true personalities are hidden, and that's where their talent lies. And that's what we work on.'

**BARRY JOHN
ACTING STUDIO**

India's Premier Training for Actors

The Diploma Course 19 December 2011

A 3-month full time course, the Diploma Course is the most intense and comprehensive training for beginning actors in the country, facilitated in Mumbai by its most respected teacher. It covers all aspects of the actor's craft through practical exercises and performance projects, culminating in film acting modules and the student's own film-making assignments.

The Certificate Course 26 November 2011

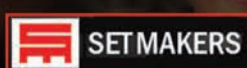

A 3-month part-time course that offers basic training in key aspects of the actor's craft. For beginning actors and for those who are working, the Certificate Course is designed to equip students with a full range of skills to lay a firm foundation for engagements with film, television and theatre.

Advanced Film Acting Course 17 March 2012

The Advanced Film Acting Course picks up where the Diploma Course leaves off and leads students through a much higher level of technique and performance challenges. Students gain the understanding and confidence to customize technique that is aligned with their own individual personalities and strengths. They are empowered to confront roles that they never imagined they could.

Customised Training Workshops for Film & TV

Specially designed workshops of variable duration for the bonding of a team of actors, honing of skills, explorations of themes, characters, relationships and action of a given script, prior to the commencement of shooting.
